

### Farming project in both Rusizi and Nyamasheke districts

This month we provided the DAP compost and lime for decrease the acidity of soil in both Rusizi and Nyamasheke. It was given to 220 farmers from different Cells who were trained in crops growing.

We have had a successful feedback from the follow up done to the famers who were trained by SEDOs that we trained. They are making such amazing kitchen gardens, organic compost ad planting some vegetables for feeding their families to win malnutrition.

### The crafts ladies at Izehirwe craft centre want to be the first wishing you a Merry Christmas!

The ladies at Ntendezi craft centre wanted to express their gratitude to Rwanda Aid and all people who are buying the cards that they are making.

They started as orphans and vulnerable in different ways. Now after learning how to make crafts and working as a cooperative of eleven members who are training other five persons to join their cooperative, they are able support their families with food, health insurance, buying animals to look after, etc. They are wishing you a happy Christmas!

### The children at Baho Neza Mwana

Thirteen children were warmly welcomed at Baho Neza Mwana Village for Street Children by other children and the staff. They were taken from Gashonga transit centre on 10<sup>th</sup> September 2017.

They were given basic materials to help them safely staying at Baho Neza Mwana and taking them back to schools based on the level where they dropped out before going to the street. They are enjoying a new life at the village and hoping for a better tomorrow.

## Children at Ngwino Nawe Village

The new district disability mainstreaming officer at Nyamasheke district visited the village of Ngwino nawe.

He appreciated the hard work that we are doing to help people with disability in this district.

In this photo, the Sector land manager (in red T-shirt), the DDMO and Janvier taking a look around Ngwino Nawe Village project.

## Education department

This month we conducted the Continuous Professional Training in both Rusizi and Nyamasheke districts. The training was successful and effective as the participants appreciated the earned skills, how it was planned and how it was delivered.

Our education team also visited and supported the Schools Based Mentors and their Mentees in both Rusizi and Nyamasheke Districts. They observed the lessons delivered and gave constructive feedback after observing and set smart targets for the next lessons.

## Facilities for schools and TVET

After building the classrooms, this month we signed the contacts with different entrepreneurs to make furniture. They started making desks, tables and chairs for four classrooms at Bushekeri Primary School and two classrooms at G.S Ntura.

We have started the building of a fence and one block of toilets at Nkombo Technical Vocational and Educational Training. Countless appreciations were expressed to all people who are contributing to make these projects possible.
